

NEBULA CONQUEST — 9 prompts d'images pour les régimes

Une image par carte de régime. Chaque prompt est **complet** : copie-colle tel quel dans ton outil d'images IA, le style commun est déjà inclus.

- **Format** : 16:9 (paysage), comme les scènes. Avec Midjourney, ajoute `--ar 16:9`. La carte recadre l'image au centre : **le sujet doit être au milieu**.
- **Noms des fichiers** : ceux indiqués pour chaque régime (par exemple `centre_collaborateur`). Dépose-les dans `Lore`, comme les scènes : je les convertis et je les place.
- **Prompt négatif** (si ton outil a une case « à éviter ») :

text, letters, words, logo, real political party symbol, flag, emblem, insignia, real person, celebrity, politician likeness, watermark, blurry, low quality, deformed hands, extra fingers

Le ton : satirique et drôle, mais sans aucun vrai logo, drapeau ni visage de vrai politique. Les personnages sont inventés.
