

NEBULA CONQUEST — 9 logos ironiques pour les régimes

Un logo de parti inventé et ironique par régime. Les logos marchent bien avec les outils d'images : une forme simple, centrée, peu de couleurs. Aucun ne reprend un vrai emblème de parti.

- **Format** : carré (1:1). Avec Midjourney, ajoute `--ar 1:1`. La carte affichera le logo au centre.
- **Nom du fichier** : indiqué au-dessus de chaque prompt. Dépose les images dans `Lore`.
- **À éviter** (si ton outil a une case pour ça) : `text`, `letters`, `words`, `real political logo`, `flag`, `photo`
